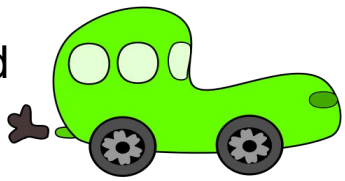
Nursery Newsletter - Autumn 2

Topic - Journeys

Our topic for this half term is Journeys. The children will be learning about the different types of transport that are used for travel (e.g. bus, train, tube, boat, plane, car, coach) and will be relating this to their own experiences. They will also be taking walks around the local area.

We will be exploring stories in which the main character goes on a journey and children will be creating their own journeys through role play and drama activities.They will also make models,and pictures of different types of transport and will be learning about transport that was used in the past.



Maths - We will be playing simple dice games with the children (e.g. moving along a track to reach the finish) and this is something you could try at home. Encourage your child to move one space at a time as they count. Can they begin to recognise how many dots are on the dice without having to count them individually?

Dates for your Diary

Christmas performance
Tuesday 8th December at 9.15 am
Parents of all day children may attend either performance.

Last day of term for Nursery
Thursday 17th December

Home Learning

You could go on walks around your local area and talk about what you can see - e.g. bus stop, post box, road signs, traffic signs house numbers, trees, flowers, seasonal changes. You could take photos of the route you take and talk about the photos afterwards. If you are using transport to travel you could talk about the names of the stations, the numbers on the buses/trams etc and the names of the places you are visiting. You could also look for and discuss familiar places/ landmarks and buildings that you see from the window.
